“ My dear friend thank you for the great memories we had while working at NASA. You were truly a gifted person who could overcome anything in life. God took you home because he only takes the best! My sister who you reminded me of a lot of pass away from breast cancer and brain cancer and an early age such as yourself. She accomplished so much like you did so again thank your for the memories of yourself and her as well. I came to the church today to pay my respects and to pray over your spirit and ask God to take you into his loving arms. You were such as inspiration to so many of the beautiful people who your life touched. You are in paradise now and we can not question God as to why. You are going to missed on this earth God Bless and for your son I pray that you stay strong young man and make your mother proud of you.

“*Sonovia was such an amazing person! I met her as just my daughters’ teacher..and she quickly became a sister to me, and a mentor/role model and comforter to my daughter! She would always make sure my baby took her medicine and made sure she would eat lunch. I knew as long as she was at McMMain, my baby would have a mama at school with her! Never have I met someone with such an infectious laugh, she could make you feel better just by saying “Hey boo”!! Her energy was always amazingly bright and she could light up any room! She truly has touched so many hearts and made a difference in so many lives. God gained the perfect angel! My boo will truly be missed by many! Rest easy my love..and save a spot for me at the table!
Kaelani and I love you!*”
